RECEIVED

MAR 09 2000

Dear Ms. Dixon, EIS Manager:

Hello my name is Kris Lamb and I am a student at Rosemary Clarke Middle School and I am writing because of some concerns that I about the repository in Yucca
1 Mountain. | The number one concern that I have is the way your going to transport nuclear waste through Las Vegas in the future, what if there was a spill? The nuclear waste from the spill could damage our food and water supply. There could be birth defects. people could also get cancer and cancer leads to death. All of these problems from one little spill. This isn't a safe situation.

I think you should do something about the nuclear
2 waste transportation route. | Better yet, I think the states that make the nuclear waste should store the nuclear waste. |

Sincerely,

Kris Lamb
